

## **WELCOME TO THE ESA 2024/2025 ABSTRACT SUBMISSION PAGE for the ESA Annual Meeting in Geneva, May 2-3, 2025**

ESA invites you to submit abstracts of scientific communications for presentation at the upcoming Annual Meeting in Geneva (Switzerland), on May 2-3, 2025.

Submitters have the choice to submit an abstract for

- Classical scientific presentations
- Special Lecture

All submitted abstracts will be peer-reviewed and the selection of the classical scientific presentations will be made by the Programme Committee, chaired by Prof André D’Hoore. The selection of the Special Lecture will be made by the ESA Council, at the Council Meeting in December.

As usual, out of the selected abstracts, a limited number will be selected for publication in the Annals of Surgery.

### **CLASSICAL SCIENTIFIC PRESENTATIONS**

Abstracts within the following themes can be submitted:

- Bariatric
- Basic Research
- Colorectal
- Endocrine
- General
- HPB
- Teaching
- Transplantation
- Upper GI
- Digestive Surgery
- Vascular
- Other

If you are selected out of the submitted abstracts, you will be invited to give an oral presentation.

### **SPECIAL LECTURE**

Since 2014, one “special article” (up to 500 words) that “aims to address important issues relevant to healthcare or medicine in general and which are of specific interest to the

profession of surgery such as quality or safety, surgical reimbursement, surgical education, or other issues facing the profession” is included as presentation in the programme.

Also this year, ESA offers you the opportunity to submit an abstract for the Special Lecture that would suite the “Surgical perspectives” format of the Annals of Surgery, that addresses important issues relevant to healthcare, medicine in general, and which are of specific interest to the profession of surgery.

The topics of these articles may include

- surgical quality or safety
- surgical reimbursement
- surgical education
- or other issues facing the profession

Unlike the other abstracts, the selection of this Special Lecture will be performed by the ESA council in December.

#### ABSTRACT SUBMISSION DEADLINES

- Abstracts for **Classical Scientific Presentations** can be submitted until **November 4** (23:59 CET).
- Abstracts for the **Special Lecture** submission can be submitted until **November 28** (23:59 CET).
- A notification regarding acceptance or rejection of abstracts to the submitting author will be sent via email (please make sure to check your spam folder) in the first half of January

#### ABSTRACT SUBMISSION GUIDELINES

Abstracts must be submitted via the abstract submission tool, available on the ESA website.

In order to smoothen the selection process, the ESA Programme Committee has added the following questions into the online submission process:

- Clearly state who is the ESA sponsor of the abstract  
*We would like to remind you that it is mandatory that the sponsor of the abstracts is a member of ESA. Without an ESA sponsor, the abstract will not be considered for evaluation.*
- Declare if it concerns an RCT or not
- Make sure to choose the surgical specialty to which the abstract belongs
- Select if you would like to be considered for a Classical Presentation or for the Special Lecture

- Please note that at the time of submission, the material should not have been published or accepted for publication elsewhere.
- You can upload a maximum of two tables and two figures in a separate jpg or pdf.

Furthermore, please carefully read through the instructions for abstract submission.

### **Format of the abstract**

All abstracts should be submitted electronically in .doc or docx format.

Please make sure to

- Underline the name of the presenter
- Put in bold the name of the ESA sponsor

### **Number of words**

The abstract length is increased to maximum 500 words (title excluded) to allow clearer information in terms of novelty, clinical relevance or translational research, robustness of the statistical analysis and study endpoints.

### **Title**

According to Annals of Surgery Editorial guidelines.

### **Background and Aims**

Please provide here what is the established knowledge about the topic of the study, the rationale and the need for the present study and the future clinical implications deriving from conducting the study.

### **Study Design**

Please provide here the setting of the study, if it is an observational retrospective, prospective or randomized controlled trial or any other type of study design. Please unequivocally define primary and secondary end-points of the study, how the recruitment of patients is accomplished, reasons for eventual exclusion, and the analysis planned to verify the initial hypothesis. These aspects are essential to verify the transparency regarding "what was planned and what was done", in particular, in this section it must clearly specified what specific hypotheses the researchers intended to test and the analytical methods by which they planned to test.

### **Statistical analysis**

If an RCT, please provide here details about sample size estimation and power of the study. Do not report in this section the sample size of the study population. Provide also specific details about statistical methodologies applied especially when inferential statistic is applied. Statistic must be rigorous and the corresponding author must declare who performed it in

the eventual subsequent full submission. Help from a bio-statistician is strongly encouraged. Please include registration number of RCT.

**Results**

Please provide here synthetically the results obtained according to the methods used in the study design section. Reviewer will expect to evaluate results that are correctly obtained.

**Discussion**

Please be very clear and synthetic. Provide only discussions which are in clear agreement with the results obtained.

**Conclusion**

Please explain with few, clear sentences the novelties or innovations contained in the study you are submitting.

**NEED HELP?**

If you encounter any difficulties during your submission, please don't hesitate to reach out to [esa@beyond-associations.be](mailto:esa@beyond-associations.be)
